### Additional Features:

Both ends open; one end with a 10' x  
10' door opening

# CALHOUN

## THE CHALLENGE

Feeling overwhelmed and burnt out from their laborious temporary event venue, Crimson Ridge sought a cost-effective, reliable, and aesthetically pleasing building solution - all while being easy to clean and repair. After researching their options for year-round building use, they chose Calhoun Super Structure. Offering a bright, low-maintenance, and cost-effective solution, Calhoun produced a custom structure fit for their needs.

## THE SOLUTION

Calhoun Super Structure partnered with Nor-Chip Ltd to provide Crimson Ridge with an attractive and budget-friendly solution that withstands heavy snow loads. Calhoun's Keder Panel design, featuring FR fabric, ensures easy maintenance when required instead of fabric patches that interfere with the overall look. Each panel of fabric can be removed and replaced separately. Now equipped to deliver a premium customer experience in any weather, Crimson Ridge boasts a structure with a sleek gable design and a spacious free-span interior perfect for adding festive decor and lighting.

**" WHEN WE STARTED LOOKING AT THE OPTION WITH CALHOUN, IT WAS VERY COMPARABLE COST WISE."**

GILBERT EDWARDS, GENERAL  
MANAGER, CRIMSON RIDGE
